Full-Stack Web Developer with an eye for design, a passion for building scalable and intuitive websites, and love for collaborative development. Currently employed as a frontend consultant working on a complex project overhauling court system and law enforcement software for county government. Enthusiastic about implementing customer-focused experiences, and always eager to learn new technologies and broaden my skill set.

Software Development Skills

- **Languages:** Javascript, Typescript, HTML5, CSS3
- **Frontend:** React, React Native, Redux, React Query, Websockets, Jest, Puppeteer, Bootstrap, Material Design
- **Backend:** NodeJS, ExpressJS, RestfulAPI, PostgreSQL, MSSQL

Professional Work Experience

Experient Group | Software Engineer II | Atlanta, GA

December 2021 – Present

- Worked as a frontend-focused consultant to advise and assist a county government software division in overhauling their court, jail, and law enforcement software to be used by judges and officers county-wide
- Developed across a tech stack including React, NodeJS, WebSocket, MSSQL, ExpressJS, SSRS, and Jenkins
- Collaborated with product owners, lead developers, business analysts, and QA departments to deliver a product with complex requirements based on the needs of the county legal system and police agency
- Worked in an Agile environment, collaborating with team members to deliver features in 2-week sprint cycles
- Provided code reviews and guidance for junior developers

Senegal Software | Mobile Developer | Atlanta, GA

April 2021 – November 2021

- Refactored and redesigned SaaS mobile application moving from Xamarin to React Native
- Collaborated with the UI team lead to build wireframes, design templates, and plan project roadmaps to roll out new features and UI enhancements to support our latest mobile application
- Developed client-side automation to resolve large-scale database issues while providing Tier 2 support for any issues which arose
- Integrated new products with existing APIs in React Native and Xamarin

Freelance Web Developer | Atlanta, GA

January 2020 – Present

- Developed the front-end for an extensive artwork social-media website, Jack Arthur, utilizing React/Redux; collaborated with a backend developer to design a new API, create new social features, and integrate with the frontend
- Developed musical portfolio websites for various clients, hosted and deployed on AWS

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA

June 2020 – Dec 2020

- Software engineering training program covering full-stack development utilizing HTML, CSS, and JavaScript, with an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

The University of Texas at Austin | M.M. Jazz Composition | Austin, TX

August 2014 – May 2016

Kennesaw State University | B.A. in Saxophone Performance | Kennesaw, GA

August 2009 – May 2013
